Thank you, Jennie. I was working down my list so I could check with you on this. This is exactly what I was looking for.

Have a GREAT weekend!

Alisa E. Harris | Special Deputy Secretary for External Affairs
Department of Environmental Protection
Rachel Carson State Office Building
400 Market Street | Harrisburg, PA 17101
Phone: 717.787.6490 | Fax: 717.705.4980

Hi Alisa -

I wanted to let you know that the data for 12 additional homes has been added to the file posted at <http://www.epaos.org/sites/7555/files/Dimock%20W1,2,3,4,5%20-HW07&HW-53%20Compulation%20Report.pdf> Please note this is a very large file.

There was one home where an elevated level of methane was detected (right at our 28 ppm "trigger level") - we informed DEP staff, as well as the resident and local EMA.

We were unable to deliver data packages to 2 of the 14 residents whose wells were sampled in weeks 4 and 5; thus the total number of homes displayed in that chart is 59, rather than the total of 61 homes sampled to date. We will post the data from those 2 homes after the homeowners receive the data.

In follow-up to my note yesterday, I believe that the RA did get a chance to speak with the Secretary this afternoon. If you have any questions or need further information, please let me know.

Have a good afternoon -

Jennie

Hi Alisa -

We're starting to contact residents and deliver packages for those sampled during weeks 4 and 5. I'll send you the link to the data when we've delivered all the packages. I believe Ron Borsellino reached out to Scott Perry earlier today; the RA may try to reach the Secretary, as well (as he has in past weeks).

Any questions, just let me know.

Thanks!

Jennie
